

November 25, 1922.

Memorandum for Mr. Winn:

I have sent out to-day the statistical blanks called for on a list from Mr. Ball, and have also tried to cover all other odds and ends in other districts. I do not know whether you have furnished the necessary blanks to operators in the Bristol Bay region but presume that you have. If not, will you not arrange to have them sent from the Seattle office? I suppose there are plenty of blanks on hand.

I do not know either from Mr. Wingard's report whether he supplied operators in the Kuskokwim district. If he did not do so, will you please arrange to send them?

You probably gave this information in your report, but I did not get to see it as Mr. O'Malley took it right away with him.

Will you also send blanks to George Albert, who salted salmon at Port Heiden. I haven't his address.
